We hope to accommodate everyone's first choice for day and pick up site, we have a set number of shares for each day and size that is set in our production plan. We will confirm your day and time upon receipt. Actual start date will be confirmed end of May.

¹We are certified by Baystate Organic Certifiers for all our crops except for anything that we may forage on your behalf.

Pick Up Day and Location: (Please select your choice) We have different locations to make vegetable pick up more convenient for our shareholders. If there are items in your bag that you don't like you may leave them in the cooler at Winter St and take something else that is available.

_____ Tuesday: 2pm-7pm at 205 Winter St, **Hopkinton**

_____ Tuesday: TBD address/time, SE of 85/135 in **Hopkinton**

_____ Friday: 2pm-7pm at 205 Winter St, **Hopkinton**

_____ Friday: TBD address/time, SE of 85/135 in **Hopkinton**

_____ Friday: TBD address/time **Upton (need at least 5 shareholders weekly)**

_____ Saturday: 9am-1pm at 125 Front St, Ashland Farmers Market, **Ashland**
(Ashland market is only 18 weeks, last two weeks location TBD)

_____ If you have chosen a TBD address above, and would like to offer your home/business as a pick up site, please check here and enter the potential pick up site address, I will be in touch to discuss: _____.

Missed pick ups: Everyone forgets, If you miss your pick up at Winter St or Ashland, I can hold your share for 24 hours for pick up at 205 Winter St, IF you confirm by email you will pick up. There will be no make up after this grace period. I do not expect shareholders who have offered pick up at their homes to make this same accommodation. **Vacation:** You may change your pick up day to Tuesday, Friday or Saturday within a week of the original pick up day. I need 48 hour email notice. All produce will be bagged with your name on the bag. Please make every effort to bring the bag back when you pick up the following week, paper bags will be used in place of the reusable, but it really makes for more work and mess.

I understand that my farmers will do their best to insure a successful crop, but that there is always risk involved with Mother Nature.
